

Asheville Area
Habitat
for Humanity®

Global Village

an international volunteer opportunity

Build with Habitat for Humanity in Guatemala

When: October 31 - November 7, 2026

Where: Quetzaltenango, Guatemala

What:

Volunteers will help Habitat Guatemala replace dirt floors with concrete floors as part of their “100,000 Floors to Play On” campaign. The initiative prioritizes women-led households with children under age 6, elderly members, or people with disabilities.

Why:

Replacing dirt floors with concrete *significantly* improves health, safety, and emotional wellbeing. Resiliency against natural disasters like floods and storms is also improved by concrete floors.

A Global Village Trip is a great opportunity to help change lives with Habitat, experience another culture, meet like-minded people, and do work that warms your heart and fills your soul.

Trip cost: \$2,369 + airfare
(includes \$600 donation to Habitat Guatemala)
